<i>Preface</i>	xxv
Part I: Introduction	1
1 NIELS G. RÖLING AND M. ANNEMARIE E. WAGEMAKERS	3
A new practice: facilitating sustainable agriculture	
1.1 When Greenland became white	3
1.2 About this book	4
1.3 A social science perspective	4
1.4 Sustainable agriculture	6
1.5 Is it immoral to be concerned about the health of natural resources?	8
1.6 'Making the flip'	10
1.7 The prevalent paradigm for thinking about innovation	10
1.8 Constructionism	13
1.9 Soft systems thinking	16
1.10 The structure of the book and an overview of contributions	17
1.11 References	19
2 JULES N. PRETTY	23
Supportive policies and practice for scaling up sustainable agriculture	
2.1 Challenges for agricultural development	23
2.2 What is and what is not sustainable agriculture	25
2.3 The spread and scaling up of sustainable agriculture	28
2.4 The three steps of sustainability	30
2.5 Enhancing farmers' capacity to innovate	31
2.6 The policy environment	35
2.7 References	40
	vii

CONTENTS

3	JAMES WOODHILL AND NIELS G. RÖLING	46
	The second wing of the eagle: the human dimension in learning our way to more sustainable futures	
3.1	Introduction	46
3.2	Social dimensions of the environmental crisis	48
3.3	Features of modernity and the tradition of environmental management	50
3.4	The case for social learning	52
3.5	Environmental management as social ecology	55
3.6	Philosophy for action	60
3.7	Social learning, a research agenda	64
3.8	Conclusion	69
3.9	References	69
	Part II: Environmental policies and farmers' reactions	73
4	MICHEL ROUX AND ABRAHAM BLUM	75
	Developing standards for sustainable farming in Switzerland	
4.1	Introduction	75
4.2	The Swiss agricultural knowledge system	75
4.3	The ecological orientation of agricultural policy	78
4.4	Developing and testing ecological standards in a network of pilot farms	80
4.5	Facilitating ecological farming by extension associations: the case of the Canton of Berne	84
4.6	Conclusions	86
4.7	References	87
5	ALEX KOUTSOURIS AND DIMITRIOS PAPADOPOULOS	88
	Extension functions and farmers' attitudes in Greece	
5.1	Introduction	88
5.2	The Greek extension service	90
5.3	Methodological approach	91
5.4	Results of the quantitative study	93
5.5	The ethnographic study	95
5.6	Combining survey and ethnographic case-study	96
5.7	Discussion	97
5.8	References	99
6	WILLEM VAN WEPEREN, JET PROOST AND NIELS G. RÖLING	102
	Integrated arable farming in the Netherlands	
6.1	Introduction	102

Cambridge University Press

0521794811 - Facilitating Sustainable Agriculture: Participatory Learning and Adaptive Management in Times of Environmental Uncertainty

N. G. Röling and M. A. E. Wagemakers

Table of Contents

[More information](#)

CONTENTS

6.2	The experience of the 38 innovators	104
6.3	A case study of the industrial potato production area	110
6.4	The evaluation of the impact of the multi-year crop protection plan	115
6.5	Conclusions	119
6.6	References	120
Part III: Farmer learning, its facilitation and supportive institutions		123
7	NADET SOMERS	125
	Learning about sustainable agriculture: the case of Dutch arable farmers	
7.1	Introduction	125
7.2	Four experimental projects	126
7.3	Characteristics of innovations and implications for the introduction of sustainable arable farming	128
7.4	Characteristics of the learning process	131
7.5	Concluding remarks about the role of extension	132
7.6	References	133
8	ALEXANDER GERBER AND VOLKER HOFFMANN	134
	The diffusion of eco-farming in Germany	
8.1	Introduction	134
8.2	The epistemology of eco-farming	134
8.3	Phases of the diffusion of eco-farming	135
8.4	Assessment of the diffusion of eco-farming based on diffusion theory	141
8.5	Examples of knowledge and communication systems supporting eco-farming	143
8.6	Conclusions	147
8.7	References	150
9	NIELS G. RÖLING AND ELSKE VAN DE FLIERT	153
	Introducing integrated pest management in rice in Indonesia: a pioneering attempt to facilitate large-scale change	
9.1	Introduction	153
9.2	The Green Revolution in Indonesia	155
9.3	Beyond the Green Revolution	156
9.4	The introduction of IPM in Indonesia	157
9.5	Introducing some of the actors involved	159
9.6	Farmer training	162
9.7	The training of trainers	165

Cambridge University Press

CONTENTS

9.8	Using farmer trainers: the vital multiplier	167
9.9	The institutional support framework	168
9.10	References	170
10	GUS HAMILTON	172
	Co-learning tools: powerful instruments of change in Southern Queensland, Australia	
10.1	Introduction	172
10.2	The location of the project and its agro-ecology	173
10.3	Land degradation – a crisis occurring	174
10.4	Efforts to address the problem	175
10.5	Our first learning experiences – the market research phases	177
10.6	Developing tools to facilitate co-learning	178
10.7	Why do these tools work?	185
10.8	Paradigm clash	187
10.9	An emergent perspective	188
10.10	References	188
11	GELIA T. CASTILLO	191
	A social harvest reaped from a promise of springtime: user-responsive, participatory agricultural research in Asia	
11.1	Introduction	191
11.2	The contours of the conventional research paradigm	192
11.3	Social networks, community actions and trade relations	194
11.4	The people–labour inconsistency	196
11.5	Farm households in multiple agro-ecological niches	197
11.6	Food availability and the livelihood calendar	198
11.7	Micro-impacts of macro-policy	199
11.8	Seed systems and on-farm management of genetic diversity	200
11.9	Technology development processes and products	202
11.10	Conclusions	209
11.11	References	210
	Part IV: Platforms for agricultural resource use negotiation	215
12	JOHN W. FISK, ORAN B. HESTERMAN AND THOMAS L. THORBURN	217
	Integrated farming systems: a sustainable agriculture learning community in the USA	
12.1	Introduction	217
12.2	The concept of a learning community	217
12.3	Evolution of integrated farming systems	219

Cambridge University Press

CONTENTS

12.4	The IFS learning community: translating vision into action	221
12.5	What has been learned from the IFS initiative?	225
12.6	Translating community-based learning into system change	229
12.7	Summary	231
12.8	References	231
13	ANDREW CAMPBELL	232
	Fomenting synergy: experiences with facilitating Landcare in Australia	
13.1	Introduction	232
13.2	An Australian experience	233
13.3	Introducing Landcare	234
13.4	The institutional context	234
13.5	Landcare group facilitation	237
13.6	Issues confronting would-be platform builders	240
13.7	Technical competence and/or people skills	241
13.8	Facilitation is not always the most appropriate intervention	242
13.9	Dealing with burnout – tools of the trade and where to find help	244
13.10	Old wine in new bottles?	245
13.11	Final points	246
13.12	References	247
14	MATHIEU WAGEMANS AND JOUKE BOERMA	250
	The implementation of nature policy in the Netherlands: platforms designed to fail	
14.1	Introduction	250
14.2	The project ‘the Fens’	251
14.3	Some essential characteristics of the area	252
14.4	The dominant types of land use	252
14.5	Stakeholders’ perspectives	253
14.6	The ‘platform’ for resource use negotiation	256
14.7	The process	258
14.8	The Dutch agricultural policy actor network in shambles	259
14.9	Taking a constructivist perspective	260
14.10	Consequences for policy development	263
14.11	The management of change	267
14.12	Conclusions	270
14.13	References	271
15	CEES VAN WOERKUM AND NOËLLE AARTS	272
	Communication between farmers and government over nature: a new approach to policy development	
15.1	Introduction	272

Cambridge University Press
