

IFSA 2018: Farming systems: facing uncertainties and enhancing opportunities

Call for abstracts for the

13th European Farming Systems Symposium

IFSA 2018, Chania, Greece

Symposium dates: **July 1 – 5, 2018**

Symposium Title: **Farming systems: facing uncertainties and enhancing opportunities**

The 13th European Farming Systems Symposium (IFSA – European Group) will be held in the Mediterranean Agronomic Institute of Chania, and hosted by the Lab. of Agricultural Extension, Rural Systems & Rural Sociology, Dept. of Agricultural Economics & Rural Development, Agricultural University of Athens.

For this Symposium, we welcome a diversity of perspectives on farming systems and different narratives of pathways. We would particularly like to attract researchers and practitioners from both natural and social science backgrounds who are new to systems thinking and who may be able to contribute constructively to lively debates on how we can design and deliver more sustainable farming and livelihood systems for the future.

IFSA STEERING COMMITTEE

Alex Koutsouris (President) – *Agricultural University of Athens*

Ana Alexandra Vilela Marta Rio Costa – *Univ. of Trás-os-Montes and Alto Douro*

Andrea Knierim – *University of Hohenheim*

Andy Wilcox – *Harper Adams University*

Ann Waters-Bayer – *Prolinnova c/o Royal Tropical Institute (KIT)*

Cees Leeuwis – *Wageningen University*

Eelke Wielinga – *LINK Consult Netherlands*

Egon Noe – *Danish Centre for Rural Research*

Giuseppe Feola – *University of Reading*

Guy Faure – *CIRAD*

Ika Darnhofer – *BOKU University of Natural Resources and Applied Life Sciences*

Julie Ingram – *University of Gloucestershire*

Laurens Klerkx – *Wageningen University*

Michael Kügler – *Verband der Landwirtschaftskammern*

Pierre Labarthe – *INRA*

Stephane Bellon – *INRA*

Teresa Pinto Correia – *University of Evora*

Thomas Aenis – *Humboldt-Universität zu Berlin*

Call for abstracts (papers and dialogue/open sessions):

We would like to invite you to submit an abstract (see Abstract Template) for one of the Themes at the symposium. Your abstract will be subject to peer review and on acceptance, you will be asked to submit a full paper. The submission deadline for abstracts is 15 September 2017.

We invite prospective participants to submit **paper** proposals (abstracts) following the attached Template. All proposals must clearly indicate the theme under which they fall.

Additionally, **dialogue/open sessions** proposals are welcome. Proposals by coordinators must also follow the attached Template. Participants, besides the coordinator, should not exceed 4 persons. All proposals must clearly indicate the theme under which they fall.

Kindly submit your proposal by email at: ifsa2018@aua.gr after June 15, 2017.

Themes

The IFSA Steering Committee suggests submissions on the following themes:

1. Learning and knowledge systems, education, extension and advisory services
2. Agroecology and new farming arrangements
3. Integrating science, technology, policy and practice
4. Smart technologies in farming and food systems
5. Sustainable agrifood systems, value chains and power structures

For further information on the themes: www.ifsa2018.gr

Important dates:

Proposal submission open: June 15, 2017

Deadline of proposal submissions: September 15, 2017

Decision of acceptance/rejection: 31 October, 2017

Deadline of full paper submissions: January 15, 2018

Decision of paper review: 31 March 2018

Deadline of revised paper submission: 15 May, 2018

Early bird registration closes: April 1, 2018

Registration closes: June 1, 2018

Conference Venue:

Mediterranean Agronomic Institute of Chania (www.maich.gr)

Conference chair: Professor Alex Koutsouris
