# Table of contents

Preface

General introduction
*Hans Langeveld, Niels Röling and Janice Jiggins*

How sustainable can agriculture be in an EU-scenario of free market & social policy?
*P.H. Vereijken and C.M.L. Hermans*

## Section 1 – Learning as a process

Introduction to section 1 – Learning as a process: Understanding one’s role in the new learning demands of multifunctional land use systems, working with different actors, tools and scales
*Nadarajah Sriskandarajah, Marianne Cerf and Egon Noe*

Where do participatory approaches meet social learning systems in the context of environmental decision making?
*Chris Blackmore*

The action researcher as a reflective partner to a core group
*Dorthe Christensen and Nadarajah Sriskandarajah*

New futures for traditional regions: A dairy farming systems response to regional development in Australia
*Anne Crawford, Mark Paine, Howard Smith and Tom Davison*

Learning from participatory research with organic farmers in the UK and Sweden
*David Gibbon, Cheney Longville and Karin Eksvärd*

Setting a research agenda to support change in agriculture: Learning processes, stakeholder participation, R&D policy making
*Bernard Hubert*

Sustainable rural development and communicative learning
*Egon Noe and Anne-Mette S. Langvad*

Landscapes and sugar boxes for learning in rural areas management
*Richard Raymond, Salma Loudiyi and Sylvie Lardon*

Farmer stable schools: A fruitful way for Danish organic dairy farmers with the goal to phase out antibiotics from their herds
*Mette Vaarst*

The changing perception of expert advice in nature conservation: A case of the Drentsche Aa
*Severine van Bommel*
Lessons learned about instigating change towards an AKIS/RD in Brandenburg, Germany
Kirsten von der Heide

Building the capacity of the Australian dairy RD&E continuum: How do we create a learning platform?
Jane M. Weatherley and Mark S. Paine

The learning potential of farmers’ market
Lotten Westberg, Johanna Björklund, Ulrika Geber and Rebecka Milestad

Project setup and learning processes in participative systems oriented research initiatives
J.W.A. Langeveld, A. Crawford, M. Paine, S. Pinheiro, W. de Boef, I.S. Kristensen, J. Hermansen, B. Dedieu, P. Hildebrand, V. Cabrera, D. Jansen and J. Dixon

Constructing new appreciative frameworks: Self inspiring from multi-agent systems
H. Morales, J.F. Tourrand and P. Bommel

Labor market competencies and agricultural extension and education undergraduates
Reza Movahedi and Uwe Jens Nagel

Building effective learning networks among researchers and stakeholders in the Danish context
Nadarajah Sriskandarajah, Dorthe Christensen, Sofie Kobayashi and Henrik Sønksen

Use of the nutrient cycle tool in developing sustainable dairy production systems
Willem van Weperen

Section 2 – Agriculture, land use and sustainable development

Introduction to section 2 – Agriculture, land use and sustainable development
Artur Cristóvão, Ken Giller, Luigi Omodei Zorini and Philippe Perrier-Cornet

Towards sustainable farming: Regional pilots on changing land use under the European Water Framework Directive
Sarie Buijze and Frank van Lamoen

Sustainable dairy farming systems for a deregulated market in northern Australia

Network analysis of farming and non-farming activities for sustainable development
Caterina Contini, Luigi Omodei Zorini and Roberto Polidori

Local organizations in the Douro-Duero region of Portugal and Spain: Towards a pluralistic local animation system
Artur Cristóvão, Alberto Baptista and Raquel Miranda

Is there a place for small-scale production and local food systems?
Artur Cristóvão, Manuel Luís Tibério, Sônia Abreu and Alberto Baptista
Marvão polyculture mosaic’s fate: Searching the way for a rural area in transition
Milena Andrade Dneboská, Teresa Pinto-Correia and Patricia Pedro-Rêgo

Organic manure availability, food security and poverty relationships at farm level in the old cotton basin of Mali
M.S. Keita, J.F. Bélières, J. Coulibaly, B. Rapidel and R. Poccard-Chapuis

Modelling environmental benefits of silvoarable agroforestry in Europe

Biomass production, transformation and allocation at the village scale in Southern Mali: Development of a conceptual model
Bruno Rapidel, René Poccard-Chapuis, Jean-François Bélières, Bouba S. Traoré, Jacob Coulibaly, Drissa Diallo and Matthieu Lessnoff

Institutions for anthropogenic nature: Case study from Brabant
Niels Röling and Janice Jiggins

The construction of a coherent vision for territorial development
Markus Schermer

Urban oriented agriculture: The case of Almere (The Netherlands)
Derk Jan Stobbelaar, Marleen Warnaar, Jan Eelco Jansma and Walter A.H. Rossing

The contribution of non-farm small-medium enterprises to rural development
H. Theodoropoulou and S. Kyriakopoulou

Agrobiodiversity as driving force of sustainable rural development
Menko Wiersema and Frans van Alebeek

Reconnecting conservation & livelihood objectives through non-timber forest product certification
David S. Wilsey

Socio-cultural issues of dairy production systems in the Netherlands: Results of farm visits with six citizen panels
B.K. Boogaard, S.J. Oosting and B.B. Bock

Socio-cultural values of Dutch dairy systems: Case study in the Krimpenerwaard and the Ablasserwaard on farm and landscape level
Daniël de Jong, S.J. Oosting and B.K. Boogaard

Carbon stocks in smallholder agroecosystems in Malawi: A farming systems approach
Peter Hildebrand and Paul Thangata

Evaluation of landscape preferences of Montado in southern Portugal as a contribution for management
Diana Ježová and Teresa Pinto
Towards a dairy system that produces more than milk
Jan J.H.M. Ketelaars, Frits K. van Evert and Ben Rutgers

Organic and integrated farming systems in Greece: A comparative analysis
Eleni Oxouzi, Athanasios Theocharopoulos, Vasilis Bagiatis and Evangelos Papanagiotou

The socioeconomic integration of expatriates in the rural prefecture of Rodopi, Greece
H. Theodoropoulou and E. Pastrapa

Rural policy in Europe: Experiences with the LEADER approach in the Netherlands
Anouk van Gils

Sustainable development in Polish agriculture: Main streams and development directions
Jadwiga Ziolkowska

Section 3 – The future of farming

Introduction to section 3 – The future of farming
Benoît Dedieu, Colin Newsham and Rebecka Milestad

Farmer relationship to nature conservation and biodiversity
Johan Ahnström and Lars Hallgren

Future prospects of the average Norwegian farm
Hilde Bjørkhaug

Diversity of women’s role and motivation in Norwegian farms
Hilde Bjørkhaug, Reidun Heggem and Kjersti Melberg

Multifunctional farms and rural development: A study of four Swedish rural areas
Johanna Björklund and Rebecka Milestad

What is the future for farming inside the agri-food chain?
Sylvie Bonny

Farming systems under saline conditions
Willem A. Brandenburg

How do dairy farmers face work problems? Some elements about the adaptation of the technical systems in Central France
Sylvie Courmut and Benoît Dedieu

Can family farmers be understood as adaptive managers?
Ika Darnhofer

Interests and policies for becoming farmers: The case of young women farmers in Greece
I. Gidarakou, L. Kazakopoulos and A. Koutsouris

Exploring the multifunctional role of farming systems
John E. Hermansen, Egon Noe and Niels Halberg

Changing European farming systems for a better future
The labour organization of small-scale breeders in the Brazilian Amazon is a key point for sustainable development  
Nathalie Hostiou, Jean-François Tourrand, Jonas Bastos da Veiga, Ailce Margarida Negreiros Alves and Tienne Barbosa  

Commercial flexibility of beef cattle farms  
Stéphane Ingrand, Eduardo Chia, Charles-Henri Moulin and Julie Cessieux  

How are European farmers dealing with global environmental changes?  
C. Macombe  

The future of farming in Norway: Processes of recruitment and intergenerational transitions  
Kjersti Melberg and Christin Berg  

Farmers’ new participation in food supply chains: Making horizontal and vertical progress by networking  
Minna Mikkola and Laura Seppänen  

Working conditions: A challenge for sustainability of mountain family farming systems diagnosis at farm level and responses designed by farmers in the Alps  
Sandrine Petit, Laurent Dobremez and Philippe Fleury  

What technical changes are needed for traditional dairy farming systems in less favoured regions?  
Vincent Thénard, Jean-Pierre Theau, Olivier Thérong and Michel Duru  

Structure and operation of small scale farming in the oasis in southern Algeria  
Salah Eddine BenZiouche  

Developing organic farming in Norway through systemic action research  
H.W. Carlsen, T.A. Breland, G. Lieblein and C. Francis  

Farming styles and the future of pig farming in Midi Pyrenees  
Monica A.M. Commandeur and François Casabianca  

Transformation of livestock farming in Cameroon: Changes in breeding practices and evolution of farmer profiles  
Patrice Djamen, Jean Lossouarn and Michel Havard  

Farming future in China: Has time come for financial transfers?  
Michel A.C. Fok, Weili Liang, Guiyan Wang and Yuhong Wu  

Rural transport and development: Case of the agro-pastors of the djebel Amour (Algeria)  
Bennoui Foudil  

The LIFESCAPE approach: Identity and landscape as an incentive for economic development  
Rob Maessen and Peter Nowicki  

Changing European farming systems for a better future  
13
The influence of climatic and socio-economic conditions on farm performance in Europe
Pytrik Reidsma and Frank Ewert

Greek agricultural sector: Facing the challenges
Athanasios Theocharopoulos, Eleni Oxouzi, Venetia Kourkouta
and Evangelos Papanagiotou

It Frysk Boerespul: Historical farmhouses with modern agrarian functions
Luitzen Walstra and Marit de Vries

Section 4 – Agricultural knowledge and innovation systems in transition

Introduction to section 4 – Agricultural knowledge and innovation systems in transition
Kirsten von der Heiden, Cees Leeuwis and Uwe Jens Nagel

Farming with future: Implementation of sustainable agriculture through a network of stakeholders
Harm Brinks and Stefanie de Kool

Knowledge development for weed management in organic farm systems in the UK
G. Davies, R.J. Turner and D. Gibbon

Social construction of knowledge: A leading perspective in a participatory research training programme in Santa Catarina, Brazil
Walter S. de Boef and Sergio L.G. Pinheiro

Participative approaches and extension practices towards sustainable agriculture: A methodological approach based on sociology of translation
Philippe Fleury, Christoph Kirchengast, Valérie Mieville-Ott, Nathalia Magnani and Sandrine Petit

Creating a Nordic regional research network in agroecology: Links to MSc education
Charles Francis, Tor Arvid Breland, Geir Lieblein, Lennart Salomonsson, Ulrika Geber, Nadarajah Sriskandarajah, Vibeke Langer, John Porter and Juha Helenius

Extension as a knowledge partner in farming systems research: Early lessons from “FutureDairy” Australia
Sean Kenny and Ruth Nettle

Technological innovation in extension services and institutional change: Learning from a historical comparison between France and the Netherlands
Pierre Labarthe

(Re)-innovating tools for decision-support in the light of farmers’ various strategies
Anne-Mette S. Langvad and Egon Noe

New knowledge arrangements in the Dutch agro-ecological innovation system: Tensions between privatisation and innovation discourses
Cees Leeuwis and Laurens Klerkx
Immaterial resources: A new concept to formalize information mobilized by beef cattle farmers in their husbandry activity
M.-A. Magne, S. Ingrand and M. Cerf

Farming systems and its cousins: Including and transcending to make a difference
C.L. Neely and J.M. Dixon

How to lay the golden eggs? Experiences from collaboration between industry and research in socially accepted poultry meat production in The Netherlands
Jet Proost, Ferry Leenstra, Kees Lokhorst, Hilde van Dijkhorst and Cees Leeuwis

“Ownership” in trans-disciplinary projects
S.F. Spoelstra, P.W.G. Groot Koerkamp and A.P. Bos

Coupling goal-based modelling to farm innovation
Barbara Sterk and Martin K. van Ittersum

Chances of success in investing all AKIS/RD’s efforts in informal linkages under privatised extension conditions
Kirsten von der Heiden

Improving leaders’ skills and competencies: The challenge for farming systems in the beginning of the millennium
Ana Alice Vilas Boas and Milton Bernardes Ferreira

Intermediate roles in privatised extension systems: The Dutch case
Eelke Wielinga

The development of a monitoring method for innovation projects
Barbara van Mierlo and Cees Leeuwis

Applied research for organic dairy farming
J.B. Pinxterhuis

Section 5 – Management of natural resources

Introduction to section 5 – Management of natural resources
Chris Stoate, Andrea Knierim and Jacques Baudry

Can earth observation technology improve efficient water use in irrigation systems? A case study of an irrigation scheme in Chaves
Alberto Baptista and Vicente Sousa

Supporting discussions on land use: A design instrument that integrates nature conservation, economic performance and landscape quality in agricultural areas
Jeroen C.J. Groot, Walter A.H. Rosing, Derk Jan Stobbelaar, Henk Renting and Martin K. van Ittersum

Changing European farming systems for a better future
Nutrient recycling potential of linked components in wetland and rainfed farming systems of western zone of Tamil Nadu, India
C. Jayanthi, S. Marimuthu, G. Vivek and B. Sivakami

Improving natural resource management by “thinking industry and acting regionally”: Introduction and successes of dairy Australia’s multi-scaled natural resource management strategy
J. Jennings, P. Day, C. Phelps and R. Packham

New ways in the management and valorisation of natural resources? Results of a comparative analysis of a sample of agriculture-environment projects of the Regional Action pilot programme in Germany
Karlheinz Knickel, Melanie Kröger and Sarah Peter

Activating farmers’ interests: Action research for biodiversity conservation and enhancement in Brandenburg
Andrea Knierim and Harald Kächele

Structural development in Danish agriculture and its implications for farmland nature
Gregor Levin, Vibeke Langer and Pia Frederiksen

The livestock commodity chain: A lever for monitoring pioneer dynamics in the Brazilian Amazon Region?
René Poccard-Chapuis, Marcelo Thales, Adriano Venturieri, Marie-Gabrielle Piketty, Benoît Mertens, Jonas Bastos da Veiga and Jean-François Tourrand

Re-inventing sustainable cropping systems in Costa Chica, Mexico
Diego Flores Sanchez, Jobert Kleine Koerkamp, Walter A.H. Rossing, Egbert A. Lantinga and Ariena H.C. van Bruggen

Differentiation of territories according to the location of agricultural activities: Methods for regional scale approaches
V. Souchère, C. Mignolet, C. Schott, E. Bienaimé and M. Benoît

Opportunities and constraints of farming styles to meet the landscape preferences of rural inhabitants
Derk Jan Stobbelaar, Florien Kuijper, Henk Renting, Jeroen C.J. Groot, André Jellema and Walter A.H. Rossing

Farmer-driven protection of meadow birds in the Friesian Woodlands (northern Netherlands)
Paul Swagemakers

Linking landowner type and landscape functions: A proposal for an integrated approach from southeast Portugal
Anne van Doorn

Changing European farming systems for a better future
Why and how design monitoring processes of farmer practices in European landscape? 461
Marc Benoit, Michel Passouant, Claudine Thenail, Laurence Hubert-Moy, Pierre Dupraz, Christian Brassac, Florence Le Ber, Jean-François Marie, Christian Bockstaller, Olivier Barriere, Dominique King, Christine Le Bas and Pierre Ruelle

Interactive Technology Assessment: The ideal and the unruly practice 463
S. Goddijn, M. van Bavel, B. Bos and G. van der Peet

Farmer’s choice and land productivity between direct seeding and transplanting in rainfed lowlands in Northeast Thailand and Northwest Cambodia 464

Improving nitrogen management on arable farms in a participative project in The Netherlands 465
J.W.A. Langeveld, F.J. de Ruijter, P. Dekker, O.A. Clevering and B.M.A. Kroonen-Backbier

Analysing the link between technical practices and social organisations: The example of a French rare breed management set up, the “Landais” sheep breed 466
A. Lauvie, A. Audiot, F. Casabianca and E. Verrier

Final section – Perspectives for participative systems oriented research

Introduction to final section – Perspectives for participative systems oriented research 471
Jan Verhagen, Hans Langeveld and John Dixon

A Farmer Field School approach for learning and exchanging knowledge on animal health and production: Results from action research in Kenya, Uganda, Vietnam and Denmark 473
M. Vaarst, J.C. Riise, P. Rasmussen and C.E.S. Larsen

Author index 475

Changing European farming systems for a better future 17
